## Developmental Audit

### assessment model with Dr Larry Brendtro\*

Follow on workshop from Dr Brendtro's 'Response Abilities Pathways' (RAP) Training

**When 9am-4:30pm, Friday, 9th April 2010**

**Venue Footscray Church of Christ, 252 Gordon St, Footscray VIC 3011**

**Cost \$120**

The Developmental Audit provides an introduction to a structured & comprehensive assessment process based on the Circle of Courage model. This is ideal for professionals who are working with young people & already familiar with the 'Circle' model. The Developmental Audit uses an ecological approach to explore a variety of perspectives with a particular focus on incorporating the private logic & goals of the young person in need.

The Circle of Courage model focuses on the aspects of belonging, mastery, independence & generosity in the young person's life & helps to shift the focus from controlling problems to developing strengths. By helping the young person to better understand their private logic & coping strategies that underlie their adaptive & self-defeating behaviour, the adult can help the young person start to understand the meaning of their behaviour. At this stage the young person & adult can move from assessment into programme planning.

**Register quick as numbers are strictly limited to a maximum of 40 participants.**

***\*Because the Developmental Audit builds on skills learnt in Dr Brendtro's RAP Training, prospective participants in the Developmental Audit must have attended a 3 day RAP training to be eligible to attend this training (info about RAP training is below).***
